

## POST JOBS INSTANTLY FROM YOUR APPLICANT TRACKING SYSTEM

Yahoo! HotJobs provides you the flexibility to easily and efficiently post and manage jobs on Yahoo! HotJobs through your applicant tracking system (ATS). All information remains centralized in your chosen HR system, while you benefit from the unparalleled reach and job matching technology of Yahoo! HotJobs.

### SEAMLESS INTEGRATION

**Open API Platform** - Based on XML standards, enables easy integration into ATS systems

**Authentication** - Log into Yahoo! HotJobs with a user's email address and password; recruiters can turn on seamless login within the ATS using this feature

**Job Post** - Post new job ad using Direct Apply or Yahoo! HotJobs Apply; Yahoo! HotJobs Job ID and other job-related details are returned after successful job post

**Job Edit** - Change the attributes of an existing job listing, take down a job (i.e., make it private) or make a private job public

**Job Refresh** - Periodically refresh a public job to indicate that the job is still open

**Job Delete** - Delete a Job Listing once the position is filled

### YAHOO! HOTJOBS ADVANTAGE

**Ease of Use** - Customized ATS solutions allow recruiters to continue to work in a familiar environment with limited training needed

**Easy Integration** - Seamless integration with current HR applications which requires minimal deployment effort

**Streamlined Recruitment Process** - An open API platform enables customized recruiting solutions into current HR workflows

**JOB UPLOADR** BETA

**HR Coordinator** (Requisition Number #15667)
